

It is outrageous to see how the corporative structure of power displayed by Sinclair Broadcasting is intending to destroy the basis of democracy that our civil society enjoys and need to preserve. The intention by Sinclair to invade the public airwaves delivering a partisan, political and smearing message against Senator Kerry few weeks before the election is ludicrous, antidemocratic and against the Federal rules of the Electoral Commission. As an American citizen and for the sake of defense of our democratic values I encourage you to call the attention to Sinclair Broadcasting regarding its lawless and unacceptable behavior. Also is a healthy action in order to save the democratic values of this country not to renew the license to Sinclair Broadcasting. Thank you
